

DIRECTIONS to the Holy Grail Vortex

Starting at Bagnols you head towards Frejus.

Starting at Nice you have to take the exit Frejus from the highway A8.

Then from Frejus it's: Frejus direction St Raphael --> St Raphael Valescure --> Agay.

Turn left at the car dealer on the right side just before entering Agay. There also is a small sign „Massif d´Esterel“.

Follow the road till you reach the fork. There choose the road to the right signing a dead end street (12km). Follow this road until you pass a lake and a sign Grotte/Rocher St. Barthelemy (right side)

Follow the road further until you see a gravel car park at the right side with view to the sea. There you can park the car.

Walk the gravel path uphill the right side till there is a circle made out of stones. There walk left. You have arrived. The tree on the picture below is the center of the Holy Grail Vortex.

Please don` t take any stone within 1 ½ m from the tree. Thank you.

Have fun!
